

CRISIS IN THE COKE FIELD.

The Posting of Sliding Scale Notices

AND PARTIAL RESUMPTION

Of Work at Many of the Plants Causes Dangerous Excitement. Strikers and Operators Both Firm—Statements of Both.

PITTSBURGH, Pa., March 26.—A special from Scotland, Pa., says: The coke regions have been quiet for an hour or two over the result of the posting of the sliding scale last night by the Frick Company, the McClure Company and other concerns. The Frick Company is an enormous concern, controlling over two-thirds of the entire number of ovens in the district, while the McClure Company owns some 2,000 ovens.

General Manager Lynch, of the Frick Company, says of the seventeen works in which they posted notices yesterday, we are working to-day, notwithstanding the shortness of notice to their employees. Among the works in partial operation are the Moorewood, West Lehigh, and the other works of the Frick Company. The Mutual works of the United Coal and Coke Company started in full, as did the McClure Company. Mr. Lynch says they did not post resumption notices and the sliding scale on eight of the works, because they have not sufficient orders to run them.

It is claimed by the operators that they are paying 20 per cent more a ton than they were paid for coke in the past. They will run their works, and will break no interference from the strikers. The first shipment made by these concerns since the strike was on Monday. Their leaders are in dismay at the reports of the unexpected desertion of so many men, but roundly deny their truth. They say that they are not deserting, but are being driven to it by the operators.

General Manager Lynch immediately wired Sheriff McCormick for officers to protect his property, and an armed force of deputies was sent to the grounds to guard against a further outbreak. To-night the region is filled with apprehension as to the result of the strike. The operators are making no attempt at resumption. The operators are firm, confident, and will command a regiment of deputies if necessary. The strikers are not so confident. They are divided, and the great majority are united, while the men who are going back to work are either desperate foreigners, who have no fear of the strikers, or men who are driven to it by the operators, and perhaps hunger. These three forces control the region to-night and the most dangerous crisis of the long fight is fully on.

HUNTINGTON, W. OHIO RIVER ROAD IN LUCK.

The Gatta Executives Fall to Get a Court Order to Stop the Road.

Special Dispatch to the Intelligencer.

PARKERSBURG, W. VA., March 26.—The Ohio River Railroad Company won an important suit yesterday, and one that may have an important bearing on other damage suits. In September, 1889, old Mr. Gatta and his wife, two very well known people of Marshall county, were killed at the Narrows, below Moundsville, while attempting to cross the Ohio River Railroad. The Gattas were seventy-one years of age, and his wife was about that age. Their executors brought suit against the railroad company, claiming a large sum of money. The case came on to trial at Moundsville before Judge Boyd. Messrs. Ewing, Melvin and Riley, of Wheeling, and Messrs. J. A. Ewing and J. C. Parkinson, of Ohio, were the counsel for the plaintiffs. The railroad company was represented by Chief Counsel Archer, of this city, and its local attorney, Mr. C. O. Oldham, of Moundsville. The testimony showed that Mr. and Mrs. Gatta had taken no precautions whatever, but had run into the danger. The court held that the rights of a railroad company are as much the rights of the public as they are of other people, and that persons using railroad crossings must take as much precaution as the railroad company.

Probably Avenged by a Lynching Party.

Killed by a Negro With Whom He Had Some Words—The Murderer in Ambush Blows His Victim's Head Off.

MIDLANDTOWN, Ky., March 26.—Another terrible tragedy took place this morning at Cumberland Gap, Tenn., in which J. A. Burke, a telegraph operator, was shot and instantly killed by Tom Hurley, a negro. The latter left, and procuring a shot gun, laid in ambush for Burke. The latter was on his way home when the negro discharged the contents of both barrels at him, tearing out his eyes, cheeks and neck. He did not instantly die, but crawled then died, but was captured here this morning and taken back to the Gap by a circuitous route to avoid meeting a mob, which had gathered to lynch him.
